

JOB OPPORTUNITY BULLETIN

BULLETIN RELEASE DATE: 7/01/00

POSITION: Associate Toxicologist

FINAL FILING DATE: Until Filled

MONTHLY SALARY: \$4136-5480

DUTIES/RESPONSIBILITIES: Under the direction of the Senior Toxicologist, the Associate Toxicologist will evaluate the toxicological literature on specified toxic air contaminants (TACs) to determine which have the potential to have greater impacts on infants and children than on adults. This involves an in-depth understanding of toxicology, as well as ability to evaluate public health and scientific methods, in order to review information on the potential for differential toxic impacts on infants and children. The incumbent will prepare written reports to communicate the information, and assist in preparing reports for review by the Scientific Review Panel and for the Air Resources Board's use in their deliberations. The Associate Toxicologist will work with other toxicologists and other technical staff in assessing whether our risk assessment methods are adequate to protect infants and children. This will involve incorporating information on the differences between children and adults in response to toxicant into chemical-specific risk assessments. In addition, this position will assist the Section in assessing impacts of toxic chemicals in the air including from routine and emergency releases.

DESIRABLE EXPERIENCE/QUALIFICATIONS: Ability to evaluate research studies in the fields of toxicology and pharmacology for application to issues of public health, work cooperatively with outside agencies and departmental staff, communicate effectively and analyze situations accurately and take effective action.

WHO SHOULD APPLY: State employees currently employed in the above classification, persons with current list, transfer or reinstatement eligibility, and state employees currently identified as surplus or on the SROA list.
